District facilities will be open during business hours. During non-business hours, access to all District facilities is by entry through the District-issued Access card or key, if issued, or by admittance from Campus Security Office personnel.

Emergencies or unforeseen circumstances may necessitate changes or alterations to any posted schedules. Areas that are revealed as problematic will have regular security surveys. Administrators from Business Services, Campus Security, Administrative Services/Risk Management, the appropriate Vice President, and other concerned areas will review these results. These surveys examine security issues such as landscaping, locks, alarms, lighting, and communications. Additionally, during the academic year, the Senior Director, Facilities and Campus Development, Director, Administrative Services/Risk Management, Director, Security and the appropriate Vice President shall collectively review and address campus security and access issues of pressing concern.
