

Medical Imaging Sciences/Radiography

Michael A. Armann

Bruce K. Oda

The Medical Imaging Sciences Department is honored to announce Mr. Michael A. Armann as the Outstanding Student and recipient of the Edward Mallinckrodt Award of Excellence in Radiography for 2024!

Michael has earned a 4.0 GPA during his tenure in the radiography program, and an accumulative GPA of 3.75. To earn an “A” in every course within the program is no easy feat, as he also completed 1650 clinical internship hours during the program.

From the first day I met Mr. Armann at his clinical site, he was professional, respectful, and self-effacing. Today, Michael has remained humble, coupled with his learned radiographic knowledge, skills, and abilities. He selflessly provides the highest standard of medical care to the patients he serves. Michael’s characteristic qualities of compassion and caring in the service of others makes him a deserving recipient for these prestigious awards.

Upon successful completion on the national board exam, I will be honored to refer to Mr. Michael A. Armann as a colleague in our profession with his earned title as a Radiologic Technologist.
